

Innovation in style and performance

Apple® Power Macintosh® 8600/200

NEW!

If your profession demands a high-performance, expandable computer that's optimized for complex work with media and other demanding tasks, choose the Apple® Power Macintosh® 8600/200 computer. It includes features that make it an ideal choice for in-house publishing, media authoring and technical applications. And because the PowerPC™ processor is mounted on a removable card, you can protect your investment with an easy and affordable upgrade to a faster processor card. The new tower design of the Apple® Power Macintosh® 8600/200 provides incredibly easy system access for upgrades, new security features and a built-in Iomega Zip™ drive for fast, easy storage or backup. In addition, built-in near-broadcast quality video-input and output capabilities, high-resolution graphics, an AV-capable hard drive, a 12X CD-ROM drive and CD-quality stereo sound add vitality to professional projects.

- ✓ 200MHz PowerPC™ 604e processor
- ✓ Integrated floating-point processor and 64KB cache
- ✓ 256KB Level 2 cache
- ✓ 32MB RAM standard, 512MB RAM maximum via 8 DIMM sockets
