■ Cutting excess fat from the diet can reduce your risk of heart disease, cancer, stroke, as well as help in weight control. Saturated fat tends to raise blood cholesterol and is found in animal fats and in many solid and hydrogenated shortening plus coconut oil and palm oil.

■ At Purity Supreme, Heartland, and Angelos, we have eliminated coconut oil and palm oil from all our bakery products. Our delicious oat bran muffins are made with egg whites and pure soybean oil and contain 16% oat bran. All of our breads and rolls are made with pure soybean oil; however, egg rolls and egg bagels do contain a small amount of cholesterol since they are made with eggs. All of our bagels are water processed and contain no oil.

■ Be sure to try our newest product, Oat Bran English Muffins. With only 130 calories, no fat, and 17% oat bran, they are a great addition to your diet.

■ Purity Supreme is proud to be a leader in marketing low fat, low cholesterol bakery products for our health-conscious customers... Quality you can taste, baked fresh every day.
